FRONTIER'S STRUCTURAL SYSTEM

The Frontier Structural System is achieved by assembling quality materials in a methodical process. The process utilizes sound installation procedures and is combined with a multi-tiered quality control inspection program. The system is designed to consistently yield strong, durable structures that endure the elements of Mother Nature and the deteriorating factors of time. The long-term goal of the Frontier Structural System is to provide a safe haven to which you and your family can retreat at the end of the day, over a long weekend, or during inclement weather conditions.

YOUR FOUNDATION

Item	Selection
Pad Preparation	Build pad w/ select fill to approximately 4" above existing grade or at BFE if in floodplain.
Top of Slab Height	Top of slab to be 6 to 12 inches above top of pad
Foundation Type	Conventional beam foundation on grade
Engineering	Performed by Frontier's independent engineer
Soil Analysis	Based on developer's boring and soil report

YOUR FRAMING

Item	Selection
Exterior Cold Walls	2x4 kd fir studs at 16" on center
Interior Walls	2x4 kd fir studs at 16" on center
Wall Studs Greater Than 10'	2x6 kd fir studs at 16" on center
Structural Lumber	#2 yellow pine
Maximum Deflection Limits	
<i>Floor Joists Sleeping Rooms</i>	Live load = 30 psf, Dead load = 10 psf, L/Δ = 360
<i>Floor Joists Other Rooms</i>	Live load = 40 psf, Dead load = 10 psf, L/Δ = 360
<i>Ceiling Joists, No Storage</i>	Live load = 10 psf, Dead load = 5 psf, L/Δ = 240
<i>Ceiling Joists, Limited Storage</i>	Live load = 20 psf, Dead load = 10 psf, L/Δ = 240
<i>Rafters</i>	Live load = 10 psf, Dead load = 20 psf, L/Δ = 180 (tile or clay roof loads)
Sub floor	1-1/8" plywood nailed, glued and screwed down
Wind Bracing Plan	
<i>Roofing Tie Down</i>	Hurricane clips attached to rafter and plate to prevent uplift
<i>Shear Walls / Corners</i>	4x8x7/16" OSB placed at ext corners to prevent shifting
<i>Anchor Bolts</i>	1/2" J-bolts in foundation to prevent wall uplift
Roof Decking	7/16 OSB insulating Tech Shield

FRONTIER'S MECHANICAL SYSTEM AND ENERGY EFFICIENCY PROGRAM

The Frontier Mechanical System is designed to provide the ultimate operating and maintenance efficiency for your home. Our mechanical system comprises electrical wiring, structured wiring, an HVAC system, a security system, plumbing, and surround sound, and home automation.

Frontier's Energy Efficiency Program ensures your home is constructed with superior energy efficiency. Not only does this create an extremely comfortable living environment for you and your family, but it also significantly lowers your utility costs, requires less maintenance, and increases your resale value down the road.

YOUR WINDOWS

Item	Selection
Window Frame	Andersen vinyl clad/wood - double-hung/casement windows, as noted on plans
Window Glazing	Andersen vinyl clad 3/4" double insulated pane
Window Glass	Andersen vinyl clad Low-E with argon gas – Picture windows: BFS aluminum - .44 U and .34 SHGC Operable windows: BFS aluminum - .55 U and .32 SHGC Water resistance test pressure: BFS aluminum - 6.0 PSF
Butt Glass	Aluminum, single pane, LoE squared glass if applicable 5/8" thick, 1.02 U factor, .74 SHGC

NOTE: Lower factors result in higher energy efficiencies.

YOUR INSULATION

Item	Selection
Cold Walls	R-13
Sloped Ceilings	R-19
Flat Attic Areas	R-36 blown insulation
Exterior Sheathing	R-3 (between brick and studs)
Polyseal	Base plates, windows, and exterior corners
Sill Seal	Foam seal below base plate and foundation
Attic Ventilation	Ridge vents with continued soffit vents
Roof Decking	Tech Shield (heat reflective decking)

BUILDING SPECIFICATIONS & ALLOWANCES

FRONTIER'S DECORATIVE TOUCHES

At Frontier, our work does not end with a soundly constructed home. We go much further and think of details that will give your home that perfect finishing touch you want. Frontier's on-staff professional decorators will work with you through the construction of your home to help you coordinate selections such as plumbing, paint color, tile, and light fixtures. Our decorators will help you create award winning interiors that complement your tastes for you to go home to every day.

YOUR CUSTOM DECORATING SERVICES

Item	Selection
Decorating Scope	Scope of 7.5 hours
<p>Our decorating services are provided to help you coordinate the main decorating selections in your new custom home. In addition, your decorator will help you get the most value for certain products by directing you to the suppliers with the most competitive price points and the greatest variety from which to choose. When you start to decorate your new custom home, you will find there are hundreds of both selections and suppliers to choose from, such as paint colors, faux finishes, tiles, carpets, and countertops. This can be very overwhelming for even the most organized decorator if there is not a methodical plan in place for making selections. Therefore, Frontier has created a system that will take you step by step through each stage of the decorating process with the help of a professional decorator.</p>
